

FAHIM ULLAH

AI/ML & DJANGO DEVELOPER

fahimwazir672@gmail.com | <https://github.com/fahim278/>

Software Engineer specializing in AI and web development with hands-on experience in Python, Django, and Machine Learning. Skilled in building real-world applications, including OCR-based AI systems and scalable backend solutions. Passionate about solving problems through technology and continuously learning advanced AI and modern development practices.

ACHIEVEMENTS

- Merit Scholarship Award University Of Science & Technology Bannu
- PM Youth Laptop Scheme Award 2023
- Participant Certificate 2nd International Conference on Computing ,AI & Data Science

EDUCATION

Bachelor of Computer Science

CERTIFICATIONS

- AI For Everyone Certificate , Coursera
- Creating Database Tables with SQL
- Generative AI Application Developer
- Introduction to Python
- Introduction to AI
- Work Smarter with Microsoft PowerPoint
- What is Data Science

TECH STACK

Languages:

C/C++, HTML , CSS, JavaScript, Python, Java, Object-oriented & functional programming,

Frontend:

HTML, CSS (Responsive & modern UI development). JavaScript, PHP

Backend:

Django (API development & server-side logic), REST APIs

Database:

PostgreSQL , MySQL, SQL Server

Tools:

Git & Github, VS Code, Jupyter Notebook, Google Colab, Power BI, Postman, CICD

WORK EXPERIENCE

AI/ML & Django Developer

I REG IT | 2025 – Present

- Developed AI-powered web applications using Python, Django, and Machine Learning
- Built and integrated OCR-based systems for extracting and processing text from images / PDF
- Designed and developed REST APIs for backend services and data handling
- Implemented machine learning models for prediction and analysis tasks
- Worked on database design and management using PostgreSQL/SQLite
- Focused on building scalable, user-friendly, and real-world problem-solving applications
- Developed scalable web applications handling thousands of users
- Improved system performance by 40% through optimization techniques
- Led backend architecture redesign for better scalability
- Mentored junior developers and conducted code reviews

PROJECTS

- [Personality Prediction Using Handwriting LLM](#)
- [Spam-SMS-Detector](#)
- [Voice Assistant](#)
- [Text To Audio Converter](#)
- [Gender Detection From Face Images](#)
- [Fake News Detector](#)
- [Personality-Insight-Pro](#)
- [Emoji Predictor From Text](#)
- [Rule Based Live Face Mask Detection](#)
